

CONNOR DUFFY

Technical Director • Engineer • Cable Coiler

EXPERIENCE

Major League Baseball (2022-Present)

Replay Support Engineer

- Configured, launched, and troubleshot softwares for MLB's replay center and ballparks internationally.
- Worked hand in hand with venue techs to troubleshoot camera feeds and equipment both before and during broadcasts.

The Inception Company (2020-2022)

Technical Director

- Lead installation of the studio's 4 M/E BlackMagic ATEM studio switcher, among other new technologies.
- Re-engineered and routed feeds to facilitate hybrid virtual and in-person presentations.
- Operated the switcher for live hybrid events featuring both live and in-person speakers and audience members.

Technical Producer

- Researched and advised on technology purchases for both new hardwares and softwares for a video production studio.
- Created show flows and ran rehearsals. Interfaced with clients and technical directors to put on live events.

Ithaca College Television (2019-2020)

Director of Technical Operations

- Managed all technical aspects of an operating college TV station, including an equipment check out center.

Designed for the Times (2017-2018)

Production Intern

- Operated both the switcher and audio board for an interior design show on Princeton Community TV.
